

Hi,

Please accept this letter and the attached resume as my application for the job.

With more than 10 years of experience in web application, and a strong work experience and educational background, I strongly believe that I can make a significant contribution to your company.

I have a partner who resides in Tokyo, which provides me with a unique advantage for seamlessly integrating into Japanese life. Moreover, my previous visits to Japan on two separate occasions have given me a profound appreciation for the country, fueling my desire to relocate there for a long-term duration.

My web developing expertise includes but not limited to:

- **Leadership role, Collaboration, Communication and Teamwork**
- **Programming Languages and Frameworks:** NodeJS, ExpressJS, Angular, React, TypeScript, Symfony2 (PHP), NestJS, and Nx.
- **Cloud Platforms:** Microsoft Azure and AWS.
- **Containerization:** Docker.
- **Microservices and APIs:** Proficient in designing and implementing complex systems.
- **Backend Development: Databases:** MongoDB, DynamoDB, FirebaseDB, and MySQL.
- **Testing:** Jest, MochaJS, Jasmine, WebdriverIO.
- **Continuous Integration/Continuous Development Tools:** Github Actions, Codeship, Heroku, Jenkins.
- **Version Control and Methodologies:** GIT, Agile, Scrum development.

Throughout my career, I have embraced Agile and Scrum methodologies, collaborating effectively with cross-functional teams to deliver high-quality products within tight deadlines. I am well-acquainted with version control systems like GIT, enabling seamless collaboration and code management.

Therefore in view of all the above with a genuine willingness to learn new technologies I would be highly gratified if you consider me for this important position.

I am a New Zealand citizen. I require assistance with a Work Visa.

Hope to hear from you soon.

Kind regards

Harpreet Singh
